

Financial Policy for Motor Vehicle Accidents (MVA)

Our Providers do not treat patients for motor vehicle accidents (MVA). For MVA's you should seek initial care from an emergency room or minor emergency clinic where the medical staff will be able to properly assess your injuries and provide an x-ray if needed.

If the E.R. has requested a follow up appointment with your primary care doctor, established patients may schedule an appointment with our office. You will need to provide us with the hospital or clinic name and date of service of your initial treatment in order for our office to request your medical records.

We do not file insurance claims for MVA's and payment in full will be required at the end of your visit. All follow up appointments relating to your MVA must also be paid in full at the time of service. You will be provided with a detailed itemization of charges at the time of payment for each visit. If you wish to file a claim with your insurance company it is your sole responsibility to do so.

I understand that I am financially responsible for all charges for this visit and any follow up visits pertaining to this motor vehicle accident.
